RE: Facility ID No. 039-00024, Idaho Power Evander Andrews Complex, Mountain Home
Tier I Operating Permit Reopening For Cause Determination

Dear Mr. Hall:

On May 1, 2007, the Department of Environmental Quality (DEQ) issued a Permit to Construct (PTC) No. P-060065 for a new turbine to Idaho Power Evander Andrews Complex, in accordance with IDAPA 58.01.01.200 through 228 (Rules for the Control of Air Pollution in Idaho).

The PTC does not contravene the existing Tier I operating permit conditions and will be incorporated into the Tier I operating permit. In accordance with IDAPA 58.01.01.386.01, the Tier I operating permit can be reopened for cause.

DEQ has determined that it is necessary to reopen the existing Tier I operating permit for cause in accordance to IDAPA 58.01.01.386.01.a and .b. This letter is a notification to the permittee of reopening in accordance with IDAPA 58.01.01.386.02.b. After 30 days from the date of this letter, DEQ will proceed with the reopening process in accordance with IDAPA 58.01.01.360 through 379.

If you have any questions about this project or about this permitting action, please contact me at (208) 373-0502 or via email at Tracy.Drouin@deq.idaho.gov.

Sincerely,

A handwritten signature in dark ink, appearing to read "Tracy Drouin", with a long, sweeping horizontal line extending to the right.
